Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

I hereby declare that:

My residence and post office address and citizenship are stated below next to my name.

I am authorized to act on behalf of the following assignee: Homeland Vinyl Products, Inc.and the title of my position with said assignee is: President

The entire title to the patent identified below is vested in said assignee.

MODULAR DECKING PLANKS

I believe said patentee(s) to be the original, first and sole/joint inventor(s) of the subject matter which is described and claimed in said patent, for which a reissue patent is sought on the invention entitled MODULAR DECKING PLANKS.

the specification of which

- ☐ is attached hereto.
- ☒ was filed on 09/26/2003 as reissue application number 10 / 673,074
and was amended on October 24, 2007
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- ☐ by reason of a defective specification or drawing.
- ☒ by reason of the patentee claiming less than he had the right to claim in the patent.
- ☐ by reason of other errors.

At least one error upon which reissue is based is described as follows:

I believe the original patent to be partly inoperative or invalid by reason of the patentee claiming less than patentee had a right to claim in the patent.

Claim 1 is being broadened to replace the limitation that a plurality of apertures must be located "intermediate said second side wall and said upwardly extending longitudinal wall" with a broader limitation that the apertures be located "proximate said upwardly extending longitudinal wall". The limitation of claim 1 in the issued patent stating that the apertures must be located "intermediate said second side wall and said upwardly extending longitudinal wall" is an error because it unduly restricts the location of the apertures. (Continued on attachment sheet.)
